

reportStack.cpp

tabs.cpp

reportStack.h

```
graph TD; A[reportStack.cpp] --> C[reportStack.h]; B[tabs.cpp] --> C;
```

The diagram illustrates a dependency structure where two source files, `reportStack.cpp` and `tabs.cpp`, both depend on a header file `reportStack.h`. The header file is represented by a black box with white text, while the source files are in white boxes with black text. Blue arrows point from each source file to the header file.
