

moneyEditItem.cpp

moneyValidator.cpp

moneyValidator.h

```
graph TD; A[moneyEditItem.cpp] --> C[moneyValidator.h]; B[moneyValidator.cpp] --> C;
```

The diagram illustrates the dependency of two source files on a common header file. At the top, two boxes represent 'moneyEditItem.cpp' on the left and 'moneyValidator.cpp' on the right. Below them, centered, is a box for 'moneyValidator.h'. A blue arrow points from 'moneyEditItem.cpp' down to 'moneyValidator.h', and another blue arrow points from 'moneyValidator.cpp' down to 'moneyValidator.h', indicating that both source files include or depend on the header file.
