

accountEditItem.cpp

accountEditList.cpp

accountEditList.h

```
graph TD; A[accountEditItem.cpp] --> C[accountEditList.h]; B[accountEditList.cpp] --> C;
```

The diagram illustrates the dependency of two source files on a common header file. At the top, two boxes represent the source files: 'accountEditItem.cpp' on the left and 'accountEditList.cpp' on the right. Below them, centered, is a box for the header file 'accountEditList.h'. Two dark blue arrows point from the bottom of each source file box down to the header file box, indicating that both source files include or depend on this header.
