

main.cpp

tabs.cpp

tabs.h

```
graph TD; maincpp[main.cpp] --> tabsh[tabs.h]; tabscpp[tabs.cpp] --> tabsh;
```

The diagram illustrates a dependency structure where two source files, `main.cpp` and `tabs.cpp`, both include the header file `tabs.h`. The header file is represented by a black box with white text, while the source files are in white boxes with black text. Blue arrows point from each source file to the header file.
