

journalStack.cpp

tabs.cpp

```
graph TD; A[journalStack.cpp] --> C[journalStack.h]; B[tabs.cpp] --> C;
```

journalStack.h

The diagram illustrates a dependency structure where two source files, `journalStack.cpp` and `tabs.cpp`, both depend on a common header file, `journalStack.h`. The source files are represented by white boxes with black borders, while the header file is represented by a solid black box with white text. Blue arrows point from each source file to the header file, indicating the direction of the dependency.
